

Agenda

EURL on Antimicrobial and Dye Residues in Food

Workshops

October 2013, EURL Fougères, France

Workshop organised by the ANSES Fougères Laboratory, EURL for Antibiotic and Dye Residues, and intended for analysts and managers from the EU's network of NRLs (32 participants): the workshop addressed issues on control of veterinary antibiotic drug residues in foods of animal origin and it also included a technical training session on the analysis by LC-MS/MS of antibiotic residues in honey products (Fougères, France).
Contact: Éric Verdon (eric.verdon@anses.fr)

Proficiency Testing Studies

December 2013, EURL Fougères, France

Provision of a Proficiency Testing Study to the attention of the EU-NRLs and to several Official Labs in Third Countries Worldwide.

Dedicated to the confirmatory control of Dye Residues in Aquaculture Products (Naturally Incurred Prawns)

Contact: Éric Verdon (eric.verdon@anses.fr) and Regine Fuselier (regine.fuselier@anses.fr)

March-May 2014, EURL Fougères, France

Provision of a Proficiency Testing Study to the attention of the EU-NRLs and to several Official Labs in Third Countries Worldwide is dedicated to the control of Chloramphenicol Residues, a banned substance in the EU, in Porcine Meat and Urine (naturally incurred testing materials)

Contact: Éric Verdon (eric.verdon@anses.fr) and Regine Fuselier (regine.fuselier@anses.fr)

EURL for Milk and Milk Products

Since October 3, 2013, the new website is open at <https://eurl-milk.anses.fr>

Workshops

October 2-3, 2013, Training session on AP determination in cheese (fluorimetric method)

October 3-4, 2013, Workshop dedicated to pasteurization tracers in milk & milk products

Contact: Bertrand Lombard (bertrand.lombard@anses.fr)

September/October, 2014, NRL-Workshop for milk and related products

Proficiency Testing Studies

October 7-18, 2013, PT trial on the counting of somatic cells in milk

November 27, 2013, PT trial on the determination of alkaline phosphatase in cheese

EURL for *Listeria monocytogenes*

Workshops

November 26-28, 2013, Training on *L. monocytogenes* PFGE-Typing

Contact: Adrien Assere (adrien.assere@anses.fr)

April 9-11, 2014, NRL-Workshop on *L. monocytogenes*, Teramo (Italy)

Proficiency Testing Studies

October 7, 2013, Proficiency Testing Trial dedicated to enumeration of *L. monocytogenes*

EURL for coagulase-positive Staphylococci

Workshops

November 5-7, 2013, Training session dedicated to CPS PFGE typing

June 4-6, 2014, NRL-Workshop on coagulase-positive Staphylococci, Maisons-Alfort (France)

Proficiency Testing Studies

November 19, 2013, detection of staphylococcal enterotoxins in food matrices

November 25-27, 2013, enumeration of coagulase-positive staphylococci in powdered infant formulae.

Contact: Bertrand Lombard (bertrand.lombard@anses.fr)

EURL for equine diseases

Workshops

In 2014, two workshops will be organized, one on Glanders, another on Equine infectious anaemia

Proficiency Testing Studies

In 2014, two ring trials will be organized, one for CFT for Glanders, another for AGID test for Equine infectious anaemia. All detailed information will be given on <http://www.ansespro.fr/eurl-equinediseases/>

Publication and design

Publication director: Marc Mortureux

Editor-in-chief: Paul Martin

Assistant managing editor: Barbara Gouget

Editorial board: Maria Laura Boschioli (Anses, France), Sabine Delannoy (Anses, France), Bertrand Lombard (Anses, France), Stefano Morabito (ISS, Italie), Françoise Petter (OEPP), Elisabeth Repérant (Anses, France), Hélène Gayon (SCL, France), Thierry Van Den Berg (Coda Cerva, Belgique), Eric Verdon (Anses, France)

Creation/Development: Julien Vigneron, Céline Leterq, Fabrice Coutureau, Parimage
